Nancy Adams, BSRS, RT(R)**

MTMI

**Medical Technology
Management Institute**

Why Attend

Trauma and forensic radiography are two very demanding areas of the medical imaging sciences. Successful examinations depend on the technologist's ability to master complex and challenging working conditions. This seminar will provide you with knowledge and skills you need to skillfully complete most trauma or forensic examinations.

Who Should Attend

- Radiologic Technologists
- Radiology Students
- Radiography Clinical Instructors

Objectives

At the completion of this seminar, participants will:

- improve skills in imaging the critical trauma patient
- be aware of legal and ethical obligations
- develop an accurate perception of the national disaster medical system
- be able to determine if forensic radiography is an area of interest.

About the Instructor
