Bone Densitometry Training Course

94% Registry Exam pass rate of past students

This 2-day, entirely webinar course, is a comprehensive review of the role of bone densitometry in the diagnosis and treatment of osteoporosis. The course will cover the technology, clinical applications, interpretation of results, clinical procedures, handling of problem cases, safety, quality assurance and the establishment and operation of a bone densitometry service.

16 Category A Credits

“This was an incredible opportunity to gain information needed to take the ARRT exam during my time off from work and from the comfort of home. The instructor is knowledgeable and easy to follow. I highly recommend this course.”

Delfina - 2/20

“Great webinar. Michelle is very knowledgeable, presents in a very clear and concise manner and does an excellent job clarifying questions. Thank you.”

Patrick - 6/20
