

Breast Ultrasound Course

New for 2023, More Scanning Time & Enhanced 3 Day Schedule

16.5 Category A Credits

This course will provide increased knowledge of the technical and clinical aspects of breast ultrasound as well as practical hands-on training in ultrasound imaging of the breast. An overview of the basic principles and techniques utilized in breast ultrasound will be presented. This course will be helpful for mammographers and sonographers who are directly involved in breast sonography and imaging and physicians whose practice includes women's health.

Day One

- Introduction to Breast Ultrasound
- Patient Interactions and Management
- Image Production
- Image Formation

Day Two

- Anatomy and Physiology
- Benign and Malignant Features
- Communication of Imaging to Supervision Physician (Radiologist, Surgeon)
- Evaluation and Selection of Representative Images
- Procedures
- High Risk Lesions and Conditions

Day Three

- Malignant Breast Lesions
- Instrumentation
- Procedures
- Other Imaging Modalities
- Breast Interventions
- Emerging Technologies

Our students have a 94% pass rate when taking the boards!
