  - Cranial Caudal (CC)
  - Medial Lateral Oblique (MLO)
- Mammography Image Quality

**Day 2 - Tuesday 8:00am - 4:00 pm**

\*4:15 pm - 6:15 pm Hands-on Positioning session w/live models

- Physics and Technology of Mammography
  - Equipment operation - QA
- Breast Anatomy and Physiology
- Breast Pathology
  - Benign disease
  - Malignant disease

**Day 3 - Wednesday 8:00am - 4:00pm**

\*4:15 pm - 6:15 pm Hands-on Positioning session w/live models

- General Quality Control Test and Procedures
- Advanced Positioning
  - Supplemental views
  - Breast Implant Imaging

**Day 4 - Thursday 8:00am - 4:00pm**

- Digital Acquisition
  - Direct and Indirect FFDM
- Digital Display and Informatics
- Breast Imaging Digital Modalities
- Mammographic Image Technique

**Day 5 - Friday 8:00am - 4:00pm**

- Positioning of Special Circumstances
- Breast Cancer Treatment Options
- Digital Quality Control Test and Procedures
- MQSA Regulations
- Accreditation and Certification Agencies - ACR, FDA
- Preparing for the Mammography Registry Exam
- Interactive Mammography Registry Review

\* On-site students will attend 1 session of Hands-on Positioning

**\*Day 6 - Digital Breast Tomosynthesis: Practical Application (optional) Saturday 8:30am - 4:30pm**

- Intro to Digital Breast Tomosynthesis
- Theory of Tomosynthesis
- Quality Control
- Unit Implementation time-line
- Protocols
- Newly Released & Future
- All Vendors Discussed:
  - Hologic-Selenia Dimensions
  - GE SenoClaire
  - Siemens Mammomat Inspiration
  - Fujifilm Aspire Cristalle
- System Design Parameters
- Personnel Training Required
- Reimbursement
- Manager's Dilemma
- Image Review

\*You can choose any DBT day offered.

It does not have to follow the course you have chosen.

~ schedule subject to change ~

**Course Credit:**

- **The Initial Training in Mammography** provides **40 hours of credit** and fulfills all requirements of the Mammography Quality Standard Act (MQSA) for initial mammography training. It also fulfills the **8 hours of credit** of digital mammography training required by MQSA before operating digital units.
- Day 6 - the **Digital Breast Tomosynthesis (DBT)** day provides **8 hours of credit** of DBT training which is required by MQSA before operating Hologic, GE, Siemens and Fujifilm DBT units.

sponsored by:

**About this Course**

The focus of our 5 day course will include all MQSA mandated material as well as an emphasis on mammography registry review. This course will cover all ARRT mammography exam content specifications as well as serve as a review for the California state mammography exam. Our course will incorporate the MQSA requirement of 8 hours of digital mammography throughout the 5 days. Hands on positioning workshops for those who attend the **on-site programs** will allow attendees the opportunity to work one on one with instructors and models to practice and learn the basic mammographic screening procedures. The week concludes on Day 5 with a registry review in an interactive and fun learning style.

Attendees staying for a 6th day of instruction will receive 8 hours of Category A credit in Digital Breast Tomosynthesis training also required by the Mammography Quality Standards Act (MQSA) before performing Digital Breast Tomosynthesis exams on Hologic Selenia Dimensions, GE SenoClaire, Siemens Mammomat Inspiration and Fujifilm Aspire Cristalle.
