

# Essentials of Musculoskeletal (MSK) Ultrasound: Diagnostic and Interventional Skills

October 25-27, 2024

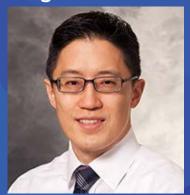

# New Orleans, LOUISIANA

## **Program Director:**

Kenneth Lee, MD
Professor of Radiology
University of Wisconsin School of Medicine
Madison. Wisconsin

#### **About this Course:**

Join us in a lively NOLA setting to learn about musculoskeletal ultrasound principles and operation including presentations of proper scanning techniques with demonstrations. You'll be thoroughly engaged in lectures, hands-on workshops and open-scanning sessions with faculty. This hands-on workshop offers training based on your experience level. You'll learn in an interactive and practical format with the direct supervision of our knowledgeable and experienced faculty.

Following the review of sonographic imaging depicting normal anatomy and pathology, participants will engage in practical hands-on scanning instruction. To complete the course, interventional techniques will be discussed and demonstrated in a hands-on lab. The combined 3-day program provides a powerful learning experience where you will improve your technical competency and patient outcomes.
